(TEXT OF BILL BEGINS ON NEXT PAGE)

1 Be it enacted by the Legislature of the State of Arizona:

2 Section 1. Section 15-185, Arizona Revised Statutes, is amended to
3 read:

4 15-185. Charter schools; financing; definitions

5 A. Financial provisions for a charter school that is sponsored by a
6 school district governing board are as follows:

7 1. The charter school shall be included in the district's budget and
8 financial assistance calculations pursuant to paragraph 3 of this subsection
9 and chapter 9 of this title, except for chapter 9, article 4 of this
10 title. The charter of the charter school shall include a description of the
11 methods of funding the charter school by the school district. The school
12 district shall send a copy of the charter and application, including a
13 description of how the school district plans to fund the school, to the state
14 board of education before the start of the first fiscal year of operation of
15 the charter school. The charter or application shall include an estimate of
16 the student count for the charter school for its first fiscal year of
17 operation. This estimate shall be computed pursuant to the requirements of
18 paragraph 3 of this subsection.

19 2. A school district is not financially responsible for any charter
20 school that is sponsored by the state board of education or the state board
21 for charter schools.

22 3. A school district that sponsors a charter school may:

23 (a) Increase its student count as provided in subsection B, paragraph
24 2 of this section during the first year of the charter school's operation to
25 include those charter school pupils who were not previously enrolled in the
26 school district. A charter school sponsored by a school district governing
27 board is eligible for the assistance prescribed in subsection B, paragraph 4
28 of this section. The soft capital allocation as provided in section 15-962
29 for the school district sponsoring the charter school shall be increased by
30 the amount of the additional assistance. The school district shall include
31 the full amount of the additional assistance in the funding provided to the
32 charter school.

33 (b) Compute separate weighted student counts pursuant to section
34 15-943, paragraph 2, subdivision (a) for its noncharter school versus charter
35 school pupils in order to maintain eligibility for small school district
36 support level weights authorized in section 15-943, paragraph 1 for its
37 noncharter school pupils only. The portion of a district's student count
38 that is attributable to charter school pupils is not eligible for small
39 school district support level weights.

40 4. If a school district uses the provisions of paragraph 3 of this
41 subsection, the school district is not eligible to include those pupils in
42 its student count for the purposes of computing an increase in its revenue
43 control limit and district support level as provided in section 15-948.

1 5. A school district that sponsors a charter school is not eligible to
2 include the charter school pupils in its student count for the purpose of
3 computing an increase in its capital outlay revenue limit as provided in
4 section 15-961, subsection C, except that if the charter school was
5 previously a school in the district, the district may include in its student
6 count any charter school pupils who were enrolled in the school district in
7 the prior year.

8 6. A school district that sponsors a charter school is not eligible to
9 include the charter school pupils in its student count for the purpose of
10 computing the revenue control limit which is used to determine the maximum
11 budget increase as provided in chapter 4, article 4 of this title unless the
12 charter school is located within the boundaries of the school district.

13 7. If a school district converts one or more of its district public
14 schools to a charter school and receives assistance as prescribed in
15 subsection B, paragraph 4 of this section, and subsequently converts the
16 charter school back to a district public school, the school district shall
17 repay the state the total additional assistance received for the charter
18 school for all years that the charter school was in operation. The repayment
19 shall be in one lump sum and shall be reduced from the school district's
20 current year equalization assistance. The school district's general budget
21 limit shall be reduced by the same lump sum amount in the current year.

22 B. Financial provisions for a charter school that is sponsored by the
23 state board of education or the state board for charter schools are as
24 follows:

25 1. The charter school shall calculate a base support level as
26 prescribed in section 15-943, except that sections 15-941 and 15-942 do not
27 apply to these charter schools.

28 2. Notwithstanding paragraph 1 of this subsection, the student count
29 shall be determined initially using an estimated student count based on
30 actual registration of pupils before the beginning of the school year. After
31 the first one hundred days or two hundred days in session, as applicable, the
32 charter school shall revise the student count to be equal to the actual
33 average daily membership, as defined in section 15-901, or the adjusted
34 average daily membership, as prescribed in section 15-902, of the charter
35 school. Before the one hundredth day or two hundredth day in session, as
36 applicable, the state board of education or the state board for charter
37 schools may require a charter school to report periodically regarding pupil
38 enrollment and attendance and the department of education may revise its
39 computation of equalization assistance based on the report. A charter school
40 shall revise its student count, base support level and additional assistance
41 before May 15. A charter school that overestimated its student count shall
42 revise its budget before May 15. A charter school that underestimated its
43 student count may revise its budget before May 15.

1 3. A charter school may utilize section 15-855 for the purposes of
2 this section. The charter school and the department of education shall
3 prescribe procedures for determining average daily attendance and average
4 daily membership.

5 4. Equalization assistance for the charter school shall be determined
6 by adding the amount of the base support level and additional
7 assistance. The amount of the additional assistance is one thousand three
8 hundred ~~three~~ THIRTY dollars ~~ninety-seven~~ FIVE cents per student count in
9 kindergarten programs and grades one through eight and one thousand five
10 hundred ~~nineteen~~ FIFTY dollars ~~seventy-five~~ FOURTEEN cents per student count
11 in grades nine through twelve.

12 5. The state board of education shall apportion state aid from the
13 appropriations made for such purposes to the state treasurer for disbursement
14 to the charter schools in each county in an amount as determined by this
15 paragraph. The apportionments shall be made in twelve equal installments of
16 the total amount to be apportioned during the fiscal year on the fifteenth
17 day of each month of the fiscal year.

18 6. Notwithstanding paragraph 5 of this subsection, if sufficient
19 appropriated monies are available after the first forty days in session of
20 the current year, a charter school may request additional state monies to
21 fund the increased state aid due to anticipated student growth through the
22 first one hundred days or two hundred days in session, as applicable, of the
23 current year as provided in section 15-948. In no event shall a charter
24 school have received more than three-fourths of its total apportionment
25 before April 15 of the fiscal year. Early payments pursuant to this
26 subsection must be approved by the state treasurer, the director of the
27 department of administration and the superintendent of public instruction.

28 7. The charter school shall not charge tuition, levy taxes or issue
29 bonds.

30 8. Not later than noon on the day preceding each apportionment date
31 established by paragraph 5 of this subsection, the superintendent of public
32 instruction shall furnish to the state treasurer an abstract of the
33 apportionment and shall certify the apportionment to the department of
34 administration, which shall draw its warrant in favor of the charter schools
35 for the amount apportioned.

36 C. If a pupil is enrolled in both a charter school and a public school
37 that is not a charter school, the sum of the daily membership, which includes
38 enrollment as prescribed in section 15-901, subsection A, paragraph 2,
39 subdivisions (a) and (b) and daily attendance as prescribed in section
40 15-901, subsection A, paragraph 6, for that pupil in the school district and
41 the charter school shall not exceed 1.0. If a pupil is enrolled in both a
42 charter school and a public school that is not a charter school, the
43 department of education shall direct the average daily membership to the
44 school with the most recent enrollment date. Upon validation of actual
45 enrollment in both a charter school and a public school that is not a charter
46 school and if the sum of the daily membership or daily attendance for that

1 pupil is greater than 1.0, the sum shall be reduced to 1.0 and shall be
2 apportioned between the public school and the charter school based on the
3 percentage of total time that the pupil is enrolled or in attendance in the
4 public school and the charter school. The uniform system of financial
5 records shall include guidelines for the apportionment of the pupil
6 enrollment and attendance as provided in this section.

7 D. Charter schools are allowed to accept grants and gifts to
8 supplement their state funding, but it is not the intent of the charter
9 school law to require taxpayers to pay twice to educate the same pupils. The
10 base support level for a charter school or for a school district sponsoring a
11 charter school shall be reduced by an amount equal to the total amount of
12 monies received by a charter school from a federal or state agency if the
13 federal or state monies are intended for the basic maintenance and operations
14 of the school. The superintendent of public instruction shall estimate the
15 amount of the reduction for the budget year and shall revise the reduction to
16 reflect the actual amount before May 15 of the current year. If the
17 reduction results in a negative amount, the negative amount shall be used in
18 computing all budget limits and equalization assistance, except that:

19 1. Equalization assistance shall not be less than zero.

20 2. For a charter school sponsored by the state board of education or
21 the state board for charter schools, the total of the base support level, the
22 capital outlay revenue limit, the soft capital allocation and the additional
23 assistance shall not be less than zero.

24 3. For a charter school sponsored by a school district, the base
25 support level for the school district shall not be reduced by more than the
26 amount that the charter school increased the district's base support level,
27 capital outlay revenue limit and soft capital allocation.

28 E. If a charter school was a district public school in the prior year
29 and is now being operated for or by the same school district and sponsored by
30 the state board of education, the state board for charter schools or a school
31 district governing board, the reduction in subsection D of this section
32 applies. The reduction to the base support level of the charter school or
33 the sponsoring district of the charter school shall equal the sum of the base
34 support level and the additional assistance received in the current year for
35 those pupils who were enrolled in the traditional public school in the prior
36 year and are now enrolled in the charter school in the current year.

37 F. Equalization assistance for charter schools shall be provided as a
38 single amount based on average daily membership without categorical
39 distinctions between maintenance and operations or capital.

40 G. At the request of a charter school, the county school
41 superintendent of the county where the charter school is located may provide
42 the same educational services to the charter school as prescribed in section
43 15-308, subsection A. The county school superintendent may charge a fee to
44 recover costs for providing educational services to charter schools.

45 H. If the sponsor of the charter school determines at a public meeting
46 that the charter school is not in compliance with federal law, with the laws

1 of this state or with its charter, the sponsor of a charter school may submit
2 a request to the department of education to withhold up to ten per cent of
3 the monthly apportionment of state aid that would otherwise be due the
4 charter school. The department of education shall adjust the charter
5 school's apportionment accordingly. The sponsor shall provide written notice
6 to the charter school at least seventy-two hours before the meeting and shall
7 allow the charter school to respond to the allegations of noncompliance at
8 the meeting before the sponsor makes a final determination to notify the
9 department of education of noncompliance. The charter school shall submit a
10 corrective action plan to the sponsor on a date specified by the sponsor at
11 the meeting. The corrective action plan shall be designed to correct
12 deficiencies at the charter school and to ensure that the charter school
13 promptly returns to compliance. When the sponsor determines that the charter
14 school is in compliance, the department of education shall restore the full
15 amount of state aid payments to the charter school.

16 I. A charter school may receive and spend monies distributed by the
17 department of education pursuant to section 42-5029, subsection E and section
18 37-521, subsection B.

19 J. For the purposes of this section:

20 1. "Monies intended for the basic maintenance and operations of the
21 school" means monies intended to provide support for the educational program
22 of the school, except that it does not include supplemental assistance for a
23 specific purpose or P.L. 81-874 monies. The auditor general shall determine
24 which federal or state monies meet the definition in this paragraph.

25 2. "Operated for or by the same school district" means the charter
26 school is either governed by the same district governing board or operated by
27 the district in the same manner as other traditional schools in the district
28 or is operated by an independent party that has a contract with the school
29 district. The auditor general and the department of education shall
30 determine which charter schools meet the definition in this subsection.

31 Sec. 2. Section 15-241, Arizona Revised Statutes, is amended to read:

32 15-241. School accountability; schools failing to meet academic
33 standards; failing schools tutoring fund

34 A. The department of education shall compile an annual achievement
35 profile for each public school.

36 B. Each school shall submit to the department any data that is
37 required and requested and that is necessary to compile the achievement
38 profile. A school that fails to submit the information that is necessary is
39 not eligible to receive monies from the classroom site fund established by
40 section 15-977.

41 C. The department shall establish a baseline achievement profile for
42 each school by October 15, 2001. The baseline achievement profile shall be
43 used to determine a standard measurement of acceptable academic progress for
44 each school and a school classification pursuant to subsection G of this
45 section. Any disclosure of educational records compiled by the department of

1 education pursuant to this section shall comply with the family educational
2 and privacy rights act of 1974 (20 United States Code section 1232g).

3 D. The achievement profile for schools that offer instruction in
4 kindergarten programs and grades one through eight, or any combination of
5 those programs or grades, shall include the following school academic
6 performance indicators:

7 1. The Arizona measure of academic progress. The department shall
8 compute the extent of academic progress made by the pupils in each school
9 during the course of each year.

10 2. The Arizona instrument to measure standards test. The department
11 shall compute the percentage of pupils who meet or exceed the standard on the
12 Arizona instrument to measure standards test, as prescribed by the state
13 board of education.

14 E. The achievement profile for schools that offer instruction in
15 grades nine through twelve, or any combination of those grades, shall include
16 the following school academic performance indicators:

17 1. The Arizona instrument to measure standards test. The department
18 shall compute the percentage of pupils pursuant to subsection F of this
19 section who meet or exceed the standard on the Arizona instrument to measure
20 standards test, as prescribed by the state board of education.

21 2. The annual dropout rate.

22 3. The annual graduation rate.

23 F. Subject to final adoption by the state board of education, the
24 department shall determine the criteria for each school classification using
25 a research based methodology. The methodology shall include the performance
26 of pupils at all achievement levels, account for pupil mobility, account for
27 the distribution of pupil achievement at each school and include longitudinal
28 indicators of academic performance. For the purposes of this subsection,
29 "research based methodology" means the systematic and objective application
30 of statistical and quantitative research principles to determine a standard
31 measurement of acceptable academic progress for each school.

32 G. The achievement profile shall be used to determine a school
33 classification that designates each school as one of the following:

34 1. An excelling school.

35 2. A highly performing school.

36 3. A performing school.

37 4. An underperforming school.

38 5. A school failing to meet academic standards.

39 H. The classification for each school and the criteria used to
40 determine classification pursuant to subsection F of this section shall be
41 included on the school report card prescribed in section 15-746.

1 I. Subject to final adoption by the state board of education, the
2 department of education shall develop a parallel achievement profile for
3 accommodation schools, alternative schools as defined by the state board of
4 education and schools with a student count of fewer than one hundred pupils.

5 J. If a school is designated as an underperforming school, within
6 ninety days after receiving notice of the designation, the governing board
7 shall develop an improvement plan for the school, submit a copy of the plan
8 to the superintendent of public instruction and supervise the implementation
9 of the plan. The plan shall include necessary components as identified by
10 the state board of education. Within thirty days after submitting the
11 improvement plan to the superintendent of public instruction, the governing
12 board shall hold a special public meeting in each school that has been
13 designated as an underperforming school and shall present the respective
14 improvement plans that have been developed for each school. The school
15 district governing board, within thirty days of receiving notice of the
16 designation, shall provide written notification of the classification to each
17 residence within the attendance area of the school. The notice shall explain
18 the improvement plan process and provide information regarding the public
19 meeting required by this subsection.

20 K. A school that has not submitted an improvement plan pursuant to
21 subsection J of this section is not eligible to receive monies from the
22 classroom site fund established by section 15-977 for every day that a plan
23 has not been received by the superintendent of public instruction within the
24 time specified in subsection J of this section plus an additional ninety
25 days. The state board of education shall require the superintendent of the
26 school district to testify before the board and explain the reasons that an
27 improvement plan for that school has not been submitted.

28 L. If a charter school is designated as an underperforming school,
29 within thirty days the school shall notify the parents of the students
30 attending the school of the classification. The notice shall explain the
31 improvement plan process and provide information regarding the public meeting
32 required by this subsection. Within ninety days of receiving the
33 classification, the charter holder shall present an improvement plan to the
34 charter sponsor at a public meeting and submit a copy of the plan to the
35 superintendent of public instruction. The improvement plan shall include
36 necessary components as identified by the state board of education. For
37 every day that an improvement plan is not received by the superintendent of
38 public instruction, the school is not eligible to receive monies from the
39 classroom site fund established by section 15-977 for ninety days plus every
40 day that a plan is not received. The charter holder shall appear before the
41 sponsoring board and explain why the improvement plan has not been submitted.

42 M. The department of education shall establish an appeals process, to
43 be approved by the state board of education, for a school to appeal data used
44 to determine the achievement profile of the school. The criteria established
45 shall be based on mitigating factors and may include a visit to the school
46 site by the department of education.

1 N. If a school remains classified as an underperforming school for a
2 third consecutive year, the department of education shall visit the school
3 site to confirm the classification data and to review the implementation of
4 the school's improvement plan. The school shall be classified as failing to
5 meet academic standards unless an alternate classification is made after an
6 appeal pursuant to subsection M of this section.

7 O. The school district governing board, within thirty days of
8 receiving notice of the school failing to meet academic standards
9 classification, shall provide written notification of the classification to
10 each residence in the attendance area of the school. The notice shall
11 explain the improvement plan process and provide information regarding the
12 public meeting required by subsection R of this section.

13 P. The superintendent of public instruction, based on need, shall
14 assign a solutions team to an underperforming school or a school failing to
15 meet academic standards comprised of master teachers, fiscal analysts and
16 curriculum assessment experts who are certified by the state board of
17 education as Arizona academic standards technicians. The department of
18 education may hire or contract with administrators, principals and teachers
19 who have demonstrated experience with the characteristics and situations in
20 an underperforming school or a school failing to meet academic standards and
21 may use these personnel as part of the solutions team. The team shall work
22 with staff at the school to assist in curricula alignment and shall instruct
23 teachers on how to increase pupil academic progress, considering the school's
24 achievement profile. The team shall select two master teachers to be
25 employed by the school. The solutions team shall consider the existing
26 improvement plan to assess the need for changes to curriculum, professional
27 development and resource allocation.

28 Q. The parent or the guardian of the pupil may apply, ~~either~~ to the
29 ~~school district or the~~ department of education, in a manner determined by the
30 department of education for ~~reimbursement~~ A CERTIFICATE OF SUPPLEMENTAL
31 INSTRUCTION from the failing schools tutoring fund established by this
32 section. ~~The school may apply to the state board of education for grants~~
33 ~~from the funds provided pursuant to section 42-5029, subsection E, paragraph~~
34 ~~7 to provide supplemental instruction.~~ Pupils attending a school designated
35 as an underperforming school or a school failing to meet academic standards
36 OR A PUPIL WHO HAS FAILED TO PASS ONE OR MORE PORTIONS OF THE ARIZONA
37 INSTRUMENT TO MEASURE STANDARDS TEST IN ORDER TO GRADUATE FROM HIGH SCHOOL
38 may select an alternative tutoring program in academic standards from a
39 provider that is certified by the state board of education. To qualify, the
40 provider must guarantee in writing a stated level of academic improvement for
41 the pupil that includes a timeline for improvement that is agreed to by the
42 parent or guardian of the pupil and the provider shall agree to refund to the
43 state the standards assistance grant monies if the guaranteed level of
44 academic improvement is not met. THE STATE BOARD OF EDUCATION SHALL
45 DETERMINE THE APPLICATION GUIDELINES AND THE MAXIMUM VALUE FOR EACH
46 CERTIFICATE OF SUPPLEMENTAL INSTRUCTION. THE STATE BOARD OF EDUCATION SHALL

1 ANNUALLY COMPLETE A MARKET SURVEY IN ORDER TO DETERMINE THE MAXIMUM VALUE FOR
2 EACH CERTIFICATE OF SUPPLEMENTAL INSTRUCTION. NOTHING IN THIS SUBSECTION
3 SHALL BE CONSTRUED TO REQUIRE THE STATE TO PROVIDE ADDITIONAL MONIES BEYOND
4 THE MONIES PROVIDED PURSUANT TO SECTION 42-5029, SUBSECTION E, PARAGRAPH 7.

5 R. Within sixty days of receiving notification of designation as a
6 school failing to meet academic standards, the school district governing
7 board shall evaluate needed changes to the existing improvement plan for the
8 school, consider recommendations from the solutions team, submit a copy of
9 the plan to the superintendent of public instruction and supervise the
10 implementation of the plan. Within thirty days after submitting the
11 improvement plan to the superintendent of public instruction, the governing
12 board shall hold a public meeting in each school that has been designated as
13 a school failing to meet academic standards and shall present the respective
14 improvement plans that have been developed for each school.

15 S. A school that has not submitted an improvement plan pursuant to
16 subsection R of this section is not eligible to receive monies from the
17 classroom site fund established by section 15-977 for every day that a plan
18 has not been received by the superintendent of public instruction within the
19 time specified in subsection R of this section plus an additional ninety
20 days. The state board of education shall require the superintendent of the
21 school district to testify before the board and explain the reasons that an
22 improvement plan for that school has not been submitted.

23 T. If a charter school is designated as a school failing to meet
24 academic standards, the department of education shall immediately notify the
25 charter school's sponsor. The charter school's sponsor shall either take
26 action to restore the charter school to acceptable performance or revoke the
27 charter school's charter. Within thirty days the school shall notify the
28 parents of the students attending the school of the classification and of any
29 pending public meetings to review the issue.

30 U. A school that has been designated as a school failing to meet
31 academic standards shall be evaluated by the department of education to
32 determine if the school failed to properly implement its school improvement
33 plan, the alignment of the curriculum with academic standards, teacher
34 training, budget prioritization or other proven strategies to improve
35 academic performance. After visiting the school site pursuant to subsection
36 N of this section, the department of education shall submit to the state
37 board of education a recommendation to proceed pursuant to subsections P, Q
38 and R of this section or that the school be subject to a public hearing to
39 determine if the school failed to properly implement its improvement plan and
40 the reasons for the department's recommendation.

1 V. If the department does recommend a public hearing, the state board
2 of education shall meet and may provide by a majority vote at the public
3 hearing for the continued operation of the school as allowed by this
4 subsection. The state board of education shall determine whether
5 governmental, nonprofit and private organizations may submit applications to
6 the state board to fully or partially manage the school. The state board's
7 determination shall include:

8 1. If and to what extent the local governing board may participate in
9 the operation of the school including personnel matters.

10 2. If and to what extent the state board of education shall
11 participate in the operation of the school.

12 3. Resource allocation pursuant to subsection X of this section.

13 4. Provisions for the development and submittal of a school
14 improvement plan to be presented in a public meeting at the school.

15 5. A suggested time frame for the alternative operation of the school.

16 W. The state board shall periodically review the status of a school
17 that is operated by an organization other than the school district governing
18 board to determine whether the operation of the school should be returned to
19 the school district governing board. Before the state board makes a
20 determination, the state board or its designee shall meet with the school
21 district governing board or its designee to determine the time frame,
22 operational considerations and the appropriate continuation of existing
23 improvements that are necessary to assure a smooth transition of authority
24 from the other organization back to the school district governing board.

25 X. If an alternative operation plan is provided pursuant to subsection
26 V of this section, the state board of education shall pay for the operation
27 of the school and shall adjust the school district's student count pursuant
28 to section 15-902, soft capital allocation pursuant to section 15-962,
29 capital outlay revenue limit pursuant to section 15-961, base support level
30 pursuant to section 15-943, monies distributed from the classroom site fund
31 established in section 15-977 and transportation support level pursuant to
32 section 15-945 to accurately reflect any reduction in district services that
33 are no longer provided to that school by the district. The state board of
34 education may modify the school district's revenue control limit, the
35 district support level and the general budget limit calculated pursuant to
36 section 15-947 by an amount that corresponds to this reduction in
37 services. The state board of education shall retain the portion of state aid
38 that would otherwise be due the school district for the school and shall
39 distribute that portion of state aid directly to the organization that
40 contracts with the state board of education to operate the school.

41 Y. If the state board of education determines that a charter school
42 failed to properly implement its improvement plan, the sponsor of the charter
43 school shall revoke the charter school's charter.

1 Z. If there are more than two schools in a district and more than
2 one-half, or in any case more than five, of the schools in the district are
3 designated as schools failing to meet academic standards for more than two
4 consecutive years, in the next election of members of the governing board the
5 election ballot shall contain the following statement immediately above the
6 listing of governing board candidates:

7 Within the last five years, (number of schools) schools in the
8 _____ school district have been designated as "schools
9 failing to meet academic standards" by the superintendent of
10 public instruction.

11 AA. At least twice each year the department of education shall publish
12 in a newspaper of general circulation in each county of this state a list of

12 be prorated for each school district or charter school. The department of
13 education may make an additional payment in the current month for any prior
14 month or months in which school districts or charter schools received a
15 prorated payment if there are sufficient monies in the fund that month for
16 the additional payments. The state is not required to make payments to a

41 after receiving notice from the department of education, the state board of
42 education may direct the superintendent of public instruction, pursuant to
43 state board of education rules, to withhold the monies the school district

2 title.

13 school is in compliance, the department of education shall restore the amount
14 of monies that the charter school is entitled to receive from the full-day
15 kindergarten fund.

16 ~~N.~~ M. Schools are not required to offer full-day kindergarten
17 instruction to qualifying students if there is insufficient classroom space.
18 Schools shall not accept monies from the full-day kindergarten fund if space
19 limitations result in class sizes that exceed the average class size of the
20 district or charter school.

21 ~~O.~~ N. All schools that accept monies from the full-day kindergarten
22 fund shall provide professional development that is directly related to the
23 delivery of kindergarten standards in a full-day program. Any school that
24 has not yet undergone professional development for implementation of the
25 delivery of a research-based reading curriculum as prescribed in section
26 15-704 may not receive money from the full-day kindergarten fund until this
27 training has been received by the kindergarten instructors on staff.

28 ~~P.~~ O. For any school district that funds voluntary full-day
29 kindergarten instruction with monies from a desegregation levy or a special
30 budget override pursuant to section 15-482 and that qualifies for monies from
31 the full-day kindergarten fund and if the desegregation monies or special
32 budget override monies are used solely to provide full-day kindergarten
33 instruction, the governing board shall hold a public meeting to determine the

13 3. Multiply the amount determined in paragraph 1 of this section by
14 the percentage determined in paragraph 2 of this section.

15 4. Multiply the amount determined in paragraph 1 of this section by
16 two per cent for assumed inflation.

17 5. Add the amounts determined in paragraphs 1, 3 and 4 of this
18 section.
